

FACTSHEET

An environmentally friendly semi-dried fertiliser providing Nitrogen, Phosphate, Potash, Lime and organic matter to help improve your soils.

What's in it?

	Kg/Ha	
	Total	Avail
Rate	24t/ha	
N	204	22
P	624	312
K	19	16

	Units/Acre	
	Total	Avail
Rate	9.5t/acre	
N	162	17
P	498	249
K	15	13

This is a by-product of wastewater treatment produced to a high standard in many plants across the UK. Following a full site assessment we deliver into temporary field stores (stockpiles) throughout the year ready for spreading at the optimum time. Nitrogen is of both readily available and slow releasing types enhancing plant growth and reducing the risk of nitrogen and phosphate leaching.

- Recommended for Cereals, Maize and grazed grass
- Reduce the need for expensive artificial fertilisers
- Delivery and spreading included
- Improves soil structure
- Assists in maintaining pH
- All year round application (NVZ)
- Can be used with Ahlstrom
